Grads Available to Teach Internet Safety for Kids

Several Citizens Academy graduates, who are also Infragard members, are available to give presentations to parents on internet safety. They've also done a few presentations for teens at local library branches. Their presentation was put together collaboratively with the FBI, incorporating multimedia clips and audience participation to educate how to protect ourselves (and our kids) online. Contact Colleen Brown to learn more: j.colleen.brown@ic.fbi.gov

June Airport Tour Another High-Flying Success

Below are a few photos from the popular Cleveland Hopkins International Airport tour that is so generously made available to FBICAF members from alumni Fred Szabo, Airport Commissioner. We're very appreciative for the opportunity to see the inner workings of this major transportation center, and meet the team that helps make it possible. Below, members tour a United 737 in the maintenance hangar, and learn about protective gear from the Cleveland Police Bomb Squad located at the airport.
